

Ambient Condition Printable Metal Nanoink

Okayama University Masayuki KANEHARA

Printed Electronics : Huge market (trillions of Yen), 30 years later

Low temperature process on plastic is necessary

By Printing and drying under ambient condition, electrodes and circuits can be fabricated on any substrate.

Ambient Conductive Metal (Au, Ag) Nanoink

Distribution

Production: Colloidal Ink CO., LTD. (President Dr. Masayuki KANEHARA)

Distribution: NAGASE & CO., LTD.

Takeshi SUO
