

Bio-venture Support Services for Clinical Research and Development

臨床研究開発のためのバイオベンチャー支援

Kunihisa Kamikawa 神川 邦久

Center for Innovative Clinical Medicine, Okayama University Hospital

Okayama University Hospital is the clinical research based hospital as well as the place you can conduct your clinical trials with our medical professionals and staffs at our cutting edge facility. Investigator-initiated clinical trials are recommended. Center for Innovative Clinical Medicine of the hospital is the key facility to promote the clinical and translational research that is a core clinical research hospital in Mid-Western Region in Japan. We support an innovative drug development as well as to invent the science-proven based novel medical devices under the legal regulation of Japanese FDA. We also accept the early-stage research seeds that promise to develop a new medical products so called "Supportive Services for Clinical Development" for mid-stage seeds as well. Please feel free to ask your inquiry or any.

岡山大学病院新医療研究開発センターでは、革新的な医薬品や医療機器開発の基礎研究から実用化まで継続的な支援業務を提供する体制を整えています。現在、臨床研究開発のための「バイオベンチャー支援窓口」を設置しています。お気軽にお問い合わせください。
